

Senate and House Caucus on Malaria and Neglected Tropical Diseases (NTDs)

Overview

Both the Senate and House Caucus aim to raise awareness of the United States' and the international community's fight against malaria and to support increased efforts to halt needless deaths from malaria and NTDs. The Caucuses recognize that, though the U.S. has made real progress in saving lives, keeping Americans safe and building allies, it is only with continued support and leadership that we can help stop this preventable disease.
